## OPEN EXHIBIT HALL PRESERVES RULES

- **Limit 5 entries per class**, with each item being unique and different.
- All are encouraged to participate.
- All exhibits must be product of the “Home Kitchen”.
- No artificial coloring may be used in canned vegetables, fruits or pickles.
- One entry per recipe per household.
- ALL CANNED FOOD MUST BE LABELED IN THE FOLLOWING MANNER OR YOUR ENTRY WILL BE DISQUALIFIED FROM JUDGING. A round label must be put on your jars (not on the lid), which specifies when the product was processed and especially how it was processed.
- Labels can be obtained from the fair office at time of entry, or when you pick-up your tags.
- Name of product, process used, processing time, pressure it was canned at, and how long it was pressured.
- EXHIBIT BOTTLES WITH RINGS.
- All exhibits must indicate date canned on the label and must be product of the August of last Fair Year to this Fair Year.  
**PRESERVES** - are made from whole fruit.  
**CONSERVE** - is made from fruit with nuts, raisins, etc.  
**MARMALADE** - is made with citrus fruits  
**JELLY** - is made from juice.
- Jellies must be in small canning jars NOT sealed with paraffin. Jellies do not need to be water bathed.
- All Butters, Conserves, Jams, Marmalades, Preserves, Pickles, Relishes and Sauces must be in standard jars with lids and must be processed in boiling water bath for the recommended time in each recipe. Frozen products will not be accepted because of spoilage problems.
- Canned fruit and vegetables must be in standard one-pint or one-quart jars (NO MAYONNAISE JARS, etc.) and must be processed in boiling water bath or pressure cooker for recommended time in each recipe.
- For dried and leather products, please label as to what type of meat, fruit or vegetable was used in each product.
- Judges may open jars if placing is close.
- Jellies, jams, marmalades, preserves, and pickles will be opened for judging.
- The Fair Board has the right to disqualify any entry considered harmful to Fair attendees.

**\*\*The USDA "Complete Guide to Canning" December 2009 will be used to determine the correct processing times for all home-canned food items.**

The object of food preservation is to preserve food in a safe and wholesome manner. This Fair Board supports the USDA and has adopted the 1989 USDA standard times and processing methods as the way to preserve food properly. All jars must be labeled with processing methods and times to be properly judged. Any jars not properly labeled must be disqualified. At the Uinta County Fair, we assume all canning is done at altitudes of 6,000 to 8,000 feet. If the canning is not done at this elevation, the altitude should be specified so proper canning times can be judged.

Judges are encouraged to judge first on preservation methods and secondly on appearance. Judging on taste is optional as the tasting of improperly canned foods can be dangerous. This includes pickles and relishes which can be a problem if there is an improper balance of food and vinegar. No low acid foods such as meats and vegetables will ever be tasted, as we do not have facilities to boil the food.

## OPEN EXHIBIT HALL FLORICULTURE RULES

- **Limit 5 entries per class**, with each item being unique and different.
- All are encouraged to participate.
- All exhibits must have been grown in Uinta County. Fair Board will furnish containers for all cut flowers. Fair officials will not be responsible for breakage or loss of any containers or accessories. Cut flowers must be shown with foliage, if naturally attached to specimen. Remove leaves that would be under water. No leaf dressing of any kind is acceptable. The Superintendent in charge of this department shall have the right to remove from the display, at any time, exhibits or parts of exhibits which become unsightly. All flowers will be judged for freshness, cleanliness, arrangements, size, color, stem, form, substance and foliage.
- **IMPORTANT INSTRUCTIONS:** Select flowers that are coming into full bloom – NOT flowers that are already in full bloom. If a flower is to remain fresh throughout the exhibit period it must be cut no later than the day before it is to be exhibited. It is generally recognized that afternoon cutting is advisable, especially later afternoon, since at that time the greatest amount of sugar is in the leaves. As soon as the flowers are placed in water, they take up enough to overcome any apparent wilting. Placing stems in water 110 degrees is usually best; after which, specimens should be placed in a cool room until the water comes to room temperature.
- Flower stems should be cut cleanly at an angle with a sharp knife or pruning shears and placed at once in deep water. It is a good practice to carry a bucket of clean water to the garden when flowers are cut and place each specimen in the water at once. After cutting and hot water treatment, add ice to the water. The flower material is ready to be placed in a cool, dark place overnight. This is called “hardening.” Flowers prepared in this way improve their substance and they will hold their freshness for a longer time.
- The Fair Board has the right to disqualify any entry considered harmful to Fair attendees.
